Our Brantford Office Celebrates One Year

It was one year ago when partners and staff of +VG Architects moved into our new location in Brantford and opened the doors to welcome a future of opportunity. Thanks to you, our clients, colleagues, friends, we have had continued success and growth in a climate of economic uncertainty.

+VG has greatly benefited from the synergies created from two offices merged into one. The renovated Imperial Bank of Canada building continues to provide inspiring spaces for the studio, meeting rooms and offices. Production has been further streamlined with the highly effective services of Hurry Print located on the ground floor.

+VG is proud to participate in the vibrant evolution of the City. The streetscape along Dalhousie changes daily with a mix of new and renewed buildings. Brantford has become a visible center for educational and business opportunities, and economic growth.

Today we thank you for your continued support as we celebrate our first year in Brantford. We remain committed to providing you with service excellence, and again look forward to our future shared success.
